## ACL Pilotless Burner Control System

**ACL HE Burner with Ignition Module**

**ACL TC 200**

The **ACL Pilotless Burner Control System** provides a simple and easy to use system that provides a safe means of lighting the burner with the added benefit of temperature control and fuel gas savings of a pilotless burner.

**Ideal for heaters up to 400,000 BTU net with 12VDC or solar**

**Temperature control provided by ACL TC 200**

**Provides flame fail and ignition**

**Single or 3 try module**

**Reliability of ACL High Efficiency Burner**

**CSA Class I Div. 2 Hazardous locations**
